

TECHNICAL AND SERVICE BULLETIN

TO: ALL KOMPAC DEALERS
NO: 31
DATE: APRIL 1991
SUBJECT: KOMPAC II FOR TOKO AND MULTIGRAPHIC PRESSES

There has been some apparent confusion about which model Kompac should be ordered to fit Toko and Multigraphics 1218 type presses. The following guidelines should be used to determine which Kompac model to order.

<u>Model Number</u>	<u>Kompac Model</u>
Toko 1800, 4700 with plastic safety covers	TK47
Toko 4750 with plastic safety covers	TK47
Multigraphics 1218 with Serial # below 987282	TK47
Toko 1800, 4750 with metal safety covers	TK4750M
Multigraphics 1218 with Serial # above 987282	TK4750M

All of these Kompac II models now use 13 1/4" rollers. If you have a Kompac II installed on a Toko or Multigraphics 1218 already in the field, make sure when ordering replacement rollers that you check which roller you have. All rollers will be color coded as follows:

<u>Part Number</u>	<u>Description</u>	<u>Color Code</u>
92470	13" Form Roller	Green
92460	13" Metering Roller	Green
94250	13 1/4" Form Roller	Black
94240	13 1/4" Metering Roller	Black
91306	13" Oscillator	Green

NOTE: All Kompac models will use 13" Oscillators

Thank you for your continued support.
Michael Pek
