

KOMPAC TECHNICAL UPDATE

NO: 44
DATE: APRIL 1993
**TO: ALL KOMPAC
DEALERS**
**SUBJECT: ATF CHIEF AND
GESTETNER
LIFT LINKS**

Effective March 1, 1993, Graph Tech began using new lift links on all Chief and Gestetner Kompac units produced. This improvement will enable you to adjust the lifting of the Kompac off the plate surface. These new lift links will replace part numbers 93690 and 93689. If you would like to upgrade an existing Kompac unit to these new style lift links, you may order this kit at no charge. Labor, however, will not be credited. This kit includes all the parts necessary for change over to the new style.

Please refer to:

PART #	DESCRIPTION:
90530	Lift Link Replacement Kit

Thank you for your continued support,

Michael Pek
Technical Service Representative
Kompac Division
