

KOMPAC TECHNICAL UPDATE

NO: 47

DATE: OCTOBER 1993

**TO: ALL KOMPAC
DEALERS**

**SUBJECT: END FRAME
BEARING
CHANGE**

To simplify ordering the Ryobi and Multigraphics
M 1819 Kompac end frame bearing changeover,
Graph Tech will begin using kit numbers.

Refer to Graph Tech kit numbers below:

<u>Kompac Model</u>	<u>New Part Number</u>
RYB 2728	94920
RYB 3200	94930
*RYB 330	94940
M 1819-I & II	94950

If you are currently experiencing end frame bearing failure and the Kompac unit is still within the one year warranty period, you can replace these parts under the standard warranty claim procedure. Labor, however, will not be credited. If the warranty period has expired, you can upgrade to the new style end frame bearing for a flat rate charge of \$150.00. There will be no dealer discount for these parts.

***Note: When ordering for 2-color RYB 330 Kompac models, the kit will only have parts for one Kompac. Therefore, to change over both units, please order two kits.**

Special 50% Dealer Discount on selected models continuing through the end of 1993.

Thank you for your continued support,

Michael Pek
Technical Service Representative
Kompac Division
