

KOMPAC TECHNICAL UPDATE

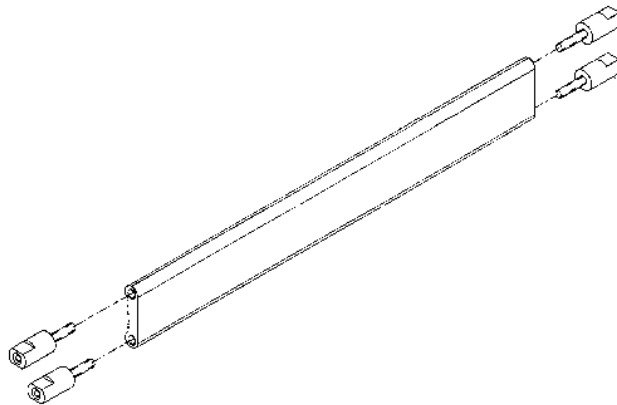

NO: 48
DATE: DECEMBER 1993

**TO: ALL KOMPAC
DEALERS**

**SUBJECT: TIE PLATE
UPGRADE KITS**

Effective October 15, 1993, Graph Tech is using new tie plates on all Ryobi 330 and Multigraphics 1819 Kompac units produced. This improvement will assist you in squaring up the Kompac after you have disassembled the Kompac for any reason. We recommend you upgrade to the new tie plate when roller replacement is necessary. This tie plate replaces the two lower tie bars under the KolorMate roller. If the Kompac unit is still within the one year warranty period, you can replace these parts under the standard warranty claim procedure. Labor, however, will not be credited. If a Kompac unit is past the warranty period, you can upgrade to the new style for \$126.00 list price, \$85.68 dealer cost. Following is a list of part numbers to order the correct kit.

<u>KOMPAC MODEL</u>	<u>KIT PART NUMBER</u>
RYB 330	94960
M 1819-I	94970
M 1819-II	94980

Note: Enclosed is our new form roller stripe gauge. This will be included with all new Kompac units.

Thank you for your continued support,

Michael Pek
Technical Service Representative
Kompac Division
