**Copyright ©2004 Ryobi Limited.** All rights reserved. This manual may not be duplicated, reproduced or transmitted (in whole or in part) in any form or by any means, electronic or mechanical, (including without limitation photocopy, facsimile, recording or any information storage and retrieval system) without the prior written consent of Ryobi Limited.

**Disclaimer of Warranties (Express or Implied).** While due care has been taken in the preparation of this manual, Ryobi Limited makes no representation or warranties with respect of the adequacy or accuracy hereof and specifically disclaims any implied warranties of merchantability or fitness for any particular purpose. Further, Ryobi Limited reserves the right to revise this publication and to make changes (both substantial and insubstantial in nature) in the contents hereof from time to time hereafter without obligation of Ryobi Limited to notify any person or organization of such revisions or changes.

**Safety Warning.** Safety devices have been installed for your protection and safety. The removal, disconnection or alteration of any safety guard, protective cover, safety interlock or other safety or protective device comprising part of the equipment described herein poses an undue safety hazard.

**Disclaimer of Liability.** Ryobi Limited disclaims any responsibility or liability for personal injury, death or property damage caused by or arising out of (1) the removal, disconnection or alteration of any safety guard, protective cover, safety interlock or other safety or protective device comprising part of the equipment described herein, (2) the use of any parts other than the parts supplied by Ryobi Limited, or (3) the failure of the person or persons operating the equipment described herein or servicing or repairing the same to observe all operating and safety procedures and warnings contained herein.

**FCC Warning** (FCC Rules apply to U.S.A. only.)  
This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

---

Never replace any parts other than the consumables shown in the Printing Press maintenance edition "Chapter 5 Replacing the Supplies" in the operation manual. The replacement should be done by a service technician who has special knowledge and technical expertise through training, so consult the dealer who you purchased the machine from.

# How to use the parts list

## 1. Section number

This parts list is divided into machine sections and each section has a number.

(Example)      Section number

5354Z 110  
|

Section number

Machine model number

\* This number includes both the machine model number and the section number.

## 2. How to use the parts list

### 1) To find the part number ( when ordering the part)

Part to replace

5354 11 214

Find the section number needed  
on this illustration of the machine.

### 2) To find the section number and the position identification number of the part in the illustration when knowing the part number

To find the section number and the position identification number, use the part number index at the end of this manual.

### 3) To find the part quantity

The quantities of the parts are stated in the column of the "Q' ty". However, for the parts such as screws and washers, etc., "—" are stated in the column of the "Q' ty".

To find the quantity of such parts, please count the number of the lines which come out from the part in the illustration.

>1, uvttagfftd: tztitUV#Mg2i104)40hgNIC4.

The section with the \* mark indicates the exclusive parts of the without UV curing unit and the with UV curing unit.
